A New Pushman Importation of Very Finest Mongolian Quality

THEY are the very finest Chinese Rugs we have ever displayed—the largest importation ever received in Chicago. In comparison, usual Chinese Rugs seem tawdry. Indeed, it is hard to distinguish them from silk, so fine is the wool of which they are woven. All-vegetable dyes color them in sapphire blues, taupe, mulberry, wine color and the royal Chinese blues, gold and rose. They are designed with "Temple" figures, each one being "carved" in outline, an indication of highest quality. Many extra fine specimens are now on display in our windows,

A ground of taupe, well covered with Mongolian designs. Blue border. Size 14x10.2 feet. Price \$750.

A silky specimen with rose ground and blue border. Size 15x10.4 feet. Price \$850.

A rose and blue border surrounds a well covered field of dark blue. Unique figures. Size 15x12.2.

A silk-like rug, with its blue field well covered with small figures and with taupe and light blue border. Size 18x12.3 feet. Price \$1,350.

In the favored 8x10 foot size we have Chinese Rugs of this extraordinary quality from \$350 to \$425. In 9x12 size the price range is \$425 to \$550. By all means see these unusual rugs.

SERVICE

HE Chicago Surface Lines have just completed the first decade under unified operation. War conditions and the shrinking purchasing power of the dollar combined to make it the most trying period in industrial history.

Annual wage expenditures of the Surface Lines increased 140 per cent and operating expenses increased 125 per cent, while the average fare per ride is only 38 per cent higher than it was ten years ago.

Nevertheless, the Surface Lines today are better equipped, are more efficient and are giving Chicago better street car service than ever before.

About \$25,000,000 has been spent for track improvements and extensions. All equipment has been rehabilitated and new equipment added. More than \$52,000,000 has been returned to the people in the form of public benefits, including 55 per cent of the net income of the companies.

Most important of all has been the building up of an efficient force of trained men working quietly but effectively for better service.

The new fiscal year begins auspiciously.

There is a growing spirit of understanding and co-operation between the public, operating officials and employes which is certain to result in improved conditions.

briefly but pungently to THE TRIBUNE with reference to the proposed gift of Muscle Shoals to Henry Ford. Lest the pungency of his comment we repeat it here:

"In addition to the \$90,000,000 of property to be given Ford along with the Muscle Shoals power, the government must still expend \$68,000,000 in cash of taxpayers' money. Why is this neve mentioned? Mr. Ford will not accept the gift until that cash is furnished by the taxpayers." We were under the impression that we had made it clear that Ford demands the completion of government improvements at government ex pense, to a total of at least \$125,000,000, as one of his requirements for taking over Muscle Shoals it and are perfectly content that it should but if Senator McKinley has overlooked it, perhaps others have done likewise, and we are willing to repeat. It is only necessary to get the full facts of this infamous deal before the people and beof this infamous deal before the people and before congress to defeat it. The hope of the country
rests in that. Senator McKinley has emphasized
an important point. If he is able to make it clear
to his fellow senators, this tremendous natural
resource will yet be saved from private and peronal exploitation by Henry Ford.

THE BEGGAR.

The sun, in blue and silver,
Flings wide his yeter of noon,
And up there plods a beggar— The old forgotten moon.

I mind me of a morning That broke with soind and rain The day was one of sorrow That flooded heart and brain

The sun went down in crimson,
Like Bacchus gorged with wine;
He drowned his grief in nector,
But had no drop for mine.

When lo! where he had vanished From bowl without a stain, The young moon poured nepenthe That healed me of my pain.

And so unto the beggar That hounts the sky today, I toss the purse of pity, And thankful go my way.

Public Demand **Builds** Another Balaban & Katz Wonder-Theatre

Because of the growing desire for the Balaban & Katz form of entertainment, and the consequent increasing demand for seats in our theatres, we are adding another magnificent theatre to our circuit—this time at Broadway and Lawrence avenue—the center of that great part of Chicago and its environs lying North of the Loop.

More than a million people reside in this center and the territory surrounding it. In themselves they would constitute the fourth largest city in America, and they are entitled to one of the largest and most beautiful theatres in the world-precisely what we intend to give them-a theatre as commodious and artistic as those wondertheatres, the CHICAGO and the TIVOLI.

The RIVIERA alone can no longer accommodate the hundreds of thousands who enjoy and seek our kind of entertainment, and as a consequence many are obliged to travel long distances to our other theatres. This new theatre in uptown Chicago, therefore, is a direct result of what we conceive to be our obligation to the people.

More than an acre of ground -46,153 square feet to be exact-will be occupied by the new theatre. This is more space than is given to any building in the world devoted exclusively to theatrical purposes. The type of architecture will be Spanish and Moorish, and the height equivalent to an eight story

This new addition more than ever emphasizes Chicago's leadership in the world of playhouses. This fact must be interesting to our patrons, and to the thousands of Chicagoans financially in-

Farmers Want Relief and Will Vote to Get It.

BY ARTHUR EVANS.

Des Moines. Ia., March 20.—[Special.]—President Coolidge has Iowa's delegates to the national convention at Cleveland in his string under instructions from the recent Republican state and district conventions.

John T. Adams, chairman of the Republican national committees, who broke openly with the administration over the retirement of Attorney General Daugherty, is being ushered towards the exit, the state convention having indorsed Charles A. Rawsom, former United States senator, for the position of national committeeman from Iowa.

"Our great interest in Latin American is largely a growth of the past tem years," the department said. "Latin American, prior to 1904, was terms in cognite to many Americans; now manufacturers and merchants, farmers, bankers, investors, shipowners, operations of attention on Latin American afformation on Latin American afformation on Latin American is cognited to many Americans; now manufacturers and merchants, farmers, bankers, investors, shipowners, operations, investors, shipowners, operations of the past tem years," the department said. "Latin American prior to 1904, was terms in formation or 1904, was term in formation or 19

rom lowa.

The party leaders are heaving sighs of relief over the dismissal of Daugherty by President Coolidge, deeming him the heaviest burden earried by the Coolidge campaign in the corn and wheat belt.

The farmers are bewildered by the scandals at Washington and are expressing disgust with both parties. No great enthusiasm is displayed for anyone is the public eye, but current surmise that Coolidge has been weakened by the Teapot Dome, the bootleg, the prizefight movies and other scandals, is to be discounted by the fact that nobody else has become any stronger. Everywhere the stock comment is heard, "Coolidge is stronger than his party." Such are the general views of G. O. P. leaders here.

Demecrats Meet Tuceday.

Democrats Meet Tuesday.

This week the Democrata have the stage, the occasion being the state convention to be held at Davenport Thursday when the fight will be over control of the delegates to the national convention at New York. Withur W. Marsh of Waterloo, treasurer of the Democratic national committee, is being opposed for the post of national committeeman by Clyde L. Herring, the Des Moines automobile dealer who ran against Senator Smith W. Brookhart two years ago. Herring and E. T. Meredith, former secretary of agriculture, are friends of William G. McAdoo, while Marsh prefers Gov. Al Smith of New York.

McAdoo, while Marsh prefers Gev. Al Smith of New York.

Close observers here say the great undercurrent of sentiment is that McAdoo's petroleum shampoo has put him out of the going and that he might as well kiss Iowa good-by whichever eide wins at the Davenport meet.

After that is over the next excitement will be the state primaries the first Monday in June, when the chief struggle will be over the United States senatorship. Senator Brookhart has for chief opponent in the Republican primaries Burton E. Sweet of Waverly, who was one of the six candidates in 1922 when Brookhart polled 135,000 in 1922 when Brookhart polled 133,000 votes to Sweet's 35,400.

When "a Trace of Insanity" Is Behind the Deed!

In good faith, a man sold a block of Chicago real estate. Not long after, he was declared insane and sent to an asylum where he died within a year.

His will, made ten years before, was refused probate, the Court declaring him to have been insane at that time.

Then the legal heirs began suit to have the real estate transfer set aside on the same ground as the will. But the purchaser held our Title Insurance; we defended his right and title without cost to him.

Insanity, like forgery and incompetency, may impair any title. You safely leave all the risk and trouble to us when you take out Title Insurance.

It's Renting Time Again

The semi-annual moving fever is showing up already. Within the next six weeks hundreds of families will find new homes. The Tribune offers you the opportunity to tell most of these people about your apartment through a single medium, and therefore at comparatively low cost.

Mrs. J. R. Carleton, 5712 Race Ave., used this Want Ad twice:

SHE SAID LATER: the first day I advertised it. The people changed their minds, however, and left the apartment on my hands again. I used a Tribune Want Ad again, and this time, too, I rented the first day I advertised. I had about forty answers."

Such results do not come twice in succession as the result of luck. Only the medium recognized as the leader in Want Advertising can produce such a response to offers carried in its columns. You will benefit by using the same medium.

CROSS ROADS

(Continued from first page.)

Davis was accustomed to spend some time each year at the home for children maintained in Illinois by the Order of Moose and because, if he were credited to Pennsylvania, where he does live, as well as Secretary of the Treasury Mellon, there would be two cabinet members from that state. The fiction, however, was soon abandoned.

In connection with attention being given by the Coolidge managers to ways and means of commending the atministration to western progressives it developed that the President is being strongly urged to record his practicence for Senator Borah for temporary chairman of the Republican national convention. The temporary chairman strikes the party keynote in his address. The keynote speech has been delivered invariably by a concervative, and by Senator Lodge more of the results of the party keynote in the servative, and by Senator Lodge more of the than by any other individual.

But this year, some of his managers have told the President, the keynote should be progressive and done by a western progressive. It is no time for an eastern conservative to be given the limelight, least of all Senator Ledge, so runs the argument.

The conservative Harding administration is under a cloud and the Republican party has been so discredited by the revelations of scandal in the Harding regime that serious defections of Republican voters, particularly in the progressive west, can be averted only by a convincing demonstration of house cleaning in government and party and by an earnest of continued reform if the party be maintained in power. By none could such a piedge be so convincingly, so elequently given in the party keynote than by Mr. Borah, the President has been assured.

The temporary chairman is selected by the national committee, which would defer to the preference expressed by the President, it is assumed. Boral and National Chairman Adams differed radically on the question of diam ing Dangherty, and Borah, concernities and the opposed for temporary chairman by many national committeemen. If he is chosen, it doubtless will be as a result of presidential insistence.

Make a Test This Spring Compare Results-Don't Compare Prices Alone

CAR-LOT COAL

CONSUMERS Company handles six million tons of its commodities—a large share of this is coal. We buy coal for our power plants, locomotives, cranes and boats. We operate 112 branches. We inspect coal; we study the results of coal; and we make comparisons not only for our own purpose, but for our customers'. We sell hundreds of steam plants in this

city. We are in touch with the engineers of those plants, because 95 per cent of our knowledge of the value of coal is the direct result of experience with these practical engineers who know their business. You cannot compare the same coal in different plants. Your engineer, if competent and honest, knows more about coal for your plant than anybody

else and the only way you can make comparisons of the different coals at varying prices is to make tests in your plant.

Service is a much abused word. Our pledge of service is based upon what we have done. Three years ago, during the switchmen's strike, when it was a problem to switch cars of coal through the City, Consumers Company transferred coal through the loop and across the City during the night, with fleets of trucks. We delivered the goods. That's the value of 45 coal yards—4 of which are large steam yards—1 at each corner of the loop.

Two years ago there was a five months' strike. Consumers Company carried suf-

ficient reserves in its yards so as not to disappoint a single customer during that strike. When the strike was a reality, the railroads and big utilities distant from Chicago bid high prices for steam coal, offering as high as \$12.50 a ton. We might have sold to the railroads at this price, but we felt a duty to our customers and Chicago. Therefore, we preserved our stocks and provided

our trade with fuel throughout the strike at a fair price, \$2.00 to \$3.00 under the market. We not only took care of all of our customers during that period, but we were glad to help many steam plants and loop buildings that came to us for service.

A few weeks ago Chicago was suddenly hit by a severe cold wave. On a Saturday night a large building, not our customer called us up at 10:30

p. m. for three large trucks of coal. One hour later the coal was delivered. We were glad to be able to provide that service. Coal is cumbersome. During severe weather it must be handled outside. Our men must face the severest weather. We cannot give everybody their coal at the same minute, nor can we run on clock-like schedule, but during these cold waves we do not know of a single case where we disappointed a customer, nor failed to deliver the coal in time to prevent worry, inconvenience or damage.

We do not want your business until we can prove that it is economical for you to use Consumers' service. We do ask for a test. We want the opportunity to prove the value of this institution.

"In most offices the crowded conditions can be relieved without adding more floor space, and I believe it is true of yours," said the ART METAL man to the head of a large organization who had just authorized the leasing of additional floor space. "Let me submit a sketch of your present office showing a re-arrangement of the equipment."

As a result of his recommendations, the entire arrangement of the office was changed. Some new equipment was purchased but no aliminated floor space was required. The new equipment, good for a lifetime of use, cost only a fraction of the additional yearly rental that had been planned.

ART METAL Service may be of assistance to you in making your present office more productive—in giving a better return for your investment in rent. There is no cost or obligation for this service.

If You Need a Tenant You Need a Want Ad

YOU cannot wish a renter into your apartment. You can get one by advertising. The wise landlord chooses the medium through which tenants are most easily secured.

That is the reason for the wide use of Tribune Want Ads by those experienced in renting.

Face your renting problem squarely. Take advantage of the wide circulation and enormous pulling power of The Tribune. Bring your Want Ad to

THE ENTIRE CONTENTS of this amazing book are arranged in one simple alphabetical order. There are no divided pages, no supplements or addenda to confuse you. The Thumb-Notch Index makes all the wealth of information in its 1,325 pages instantly accessible.

In addition to complete definitions of all the terms in use in every-day life, including scientific words, colloquialisms and slang, world-war words, foreign words, business terms, you will find in this one immense, all-inclusive vocabulary, innumerable outstanding facts in every branch of human knowledge.

LIVES OF PUBLIC MEN AND WOMEN-Facts regarding Humanitarians, Presidents, Pontiffs, Painters, Poets, Sovereigns, Statesmen, Scientists, Nobel Prize Winners.

NAMES OF NEW KINGDOMS AND RE-PUBLICS-For the first time in any English dictionary are recorded The Saor Stat, or Free State of Ireland; Azer-baijan, Czecho-Slovakia, Kingdom of Egypt, Esthonia, Hejaz, Latvia or Lettonia, Lithuania, Nakichevan, Poland, the Far Eastern Republic; The Kingdom of the Serbs, Croats, and Slovenes, known also as Jugo-Slavia.

How Would You Answer Such Questions As These?

What is a Solahorik? What is the coll cyc?
Have you a derine? What is energelen?
What is a surin-emplor? Who is Gandhi?
What is relativity? Can you explain a radioanglifier? Does lifty-fifty mean anything to you?

And they are but a few of the countless thousands that confront you when reading, and which this Dictionary alone answers correctly

2,500 PICTURES—Including full-page illustrations of Armor, Fish, Insects, Man, Metric System, Mushrooms, Plants, Reptiles, and Radio (or Wireless), Telephony, Textual Figures of Aeroplane and Hydroplane Carburization, and Hand Grenade (reproduced by permission of the War Department) and Military Uniforms

It Cost More Than \$1,500,000 to produce the colossal Unabridged Standard Dictionary upon which this newest Dictionary is based.

The English Language of Today at Your Command

Are you familiar with the wealth of new words with which our already wonderfully expressive tongue has been enriched since the Great War—even during the past few months? Can you, on the instant, use them correctly in your conversation and writings? Do you fully comprehend their true meaning when you see them in the current newspapers, periodicals, and books, and in your daily mail—when you hear them from the pulpit, on the stage and in the conversation of your friends? Can you define and pronounce them accurately for your children?

Colleguialisms and Slang

The Funk & Wagnalls Practical Standard Dictionary defines the very newest words and phrases in our language, such as audio-meter, book value, Dail Eireans, Fascisti, Ku Klus, Kleagle, Insulin, miline, radio-broadcasting, radiophone, symmo, vactuphone, variocoupler, vitamin, etc. It brings to you the very newest meanings of old terms, and brings you down-to-the-minute information on all the changes taking place in our language.

It Answers the Questions That Children Ask

In schools, in business offices, in homes—for physicians, doctors, lawyers, writers—for public speakers, students, men of affairs—for citb women, business women, society women, and "old-fashioned" (?) women directing home affairs—for parents who are training their children in that priceless accomplishment, the correct use of our language—for all who speakeread, or write English, or who desire to do so, this volume will prove a neverfailing guide of sterling worth.

See you tomorrow! American Chorus Girls

[Chiengo Tribune Foreign News Service.] BERLIN, March 30.—Twenty American chorus girls threaten to break up the union of German chorus girls. They have been engaged by a desperate German director who is preparing a new review. He found that the money set aside to float his venture. ture was not enough to pay for the stage and chorus, since the organized chorus union is trying to exploit the shortage of pulchritude on the Berlin Quake.

Death seems imminent. With the exception of one ten minute egg the sinners promptly seek the way of salvation which is obligingly pointed out to them by the righteous. The exception shoots the noble Russian prince, whose jewels "the gang" had planned to make way with.

He had evidently studied to effect and had remembered most of what was told him in the process. The result, in Chopin and Liszt, was a fair-ly good performance, if hardly brilliant enough to classify him among the existing virtuosi of today.

A bit later in the afternoon the Beethoven trio ended this season's series of recitals at the Cordon club. An agreeable performance was given of a tuneful trio in G by Mozart and an amusing fairy tale in music by

BY EDWARD MOORE. In yesterday afternoon's list of mu ical events the most entertaining

item was one that classified as only partially professional. It was an opera, Bedrich Smetana's "The Bartered hardly mention a more annoying discourtesy than that of crowding by the Smetana Singing society.

Years ago the Metropolitan Opera

Years ago the Metropolitan Opera company used to present "The Bartered Bride" and considered it worth tered Bride" and considered it worth bling past other passengers to get a first class cast, Emmy Destinn, Otto seat. Goritz, Carl Jörn, Albert Reiss, Her-bert Witherspoon, and such. Since then it has been one of the good things that opera companies do not give, to be revived only by some localized or-ganization like this one, which, by the way, was celebrating the centenary birthday anniversary of the composer.

It was an observance of much joy. It was an observance of much joy, an opera with warm, live music, a performance as smooth as any professional company is likely to give, pluding an enthusiasm all its own. At that it had some professional elements. Mile Luka, who for two seasons has been swamped under a flood of tiny, characteriess bits at the Civic opera, blossomed out in the rôle of Kecal, the marriage broker, and displayed distinct possibilities as a singer and actor of possibilities as a singer and actor of the control of the ossibilities as a singer and actor of aritone comic parts. Marie Havelka, to the best of my knowledge, is not re corded in the opera casts of this country, but she sang the part of Marenka

"The Bartered Bride" is a bit less-urely of movement for this age of jazz and pep, but it is a delight. It was excellently conducted by Stephen A.

The Civic Orchestra of Chicago was at the top of its form at Orchestra half in Ambroise Thomas' "Mignon" overture and the first movement of Dvorak's "New World" symphony. Eric DeLamarter was the conductor during this section of the program. Goldle Gross, cellist, was announced as the soloist.

A Negro vaudeville by Noble Sissie and Lew Payton, with music by Eubie Blake, and staged by Julian Mitchell: performed March 30, 1924, in the Illinois Theater, by the authors, George W. There is sheer loveliness in two or three of Mr. Blake's songs; and they are sung as he wrote them to be sung. His stunt-tunes, for the singers or dancers, or for both are sublimated achievements in the art of the bifurcated beat; they are de-luxe jazz without pretending to be something else.

And Mr. Mitchell has given to the staging of the numbers a form and a definite but unobtrusive design that put the performance far ahead of any other in kind I have seen. In and a dennite but uncorrusive design that put the performance far ahead of any other in kind I have seen. In one stimulating ensemble, "Bandanaland," he revisits the glimpses of the Weberfields moon, and by his maneuvering of the steppers brings back memories of the nights when "Dinah," "Lou," and "Rosse-Posie" were the love-ballads we adored.

There is an idea in the There is an idea in the piece so rich in comic possibilities that it might have come out of the Washington in quisitions: that of a down-and-out horse-owner who wins so much money at the deristive odds put on his entry that he becomes the most important depositor in Bamville's bank, and is, therefore, made its president.

A good show, by any measure, and the best of the shows in kind.

the judge's opinion, "Of all the great tations of the earth, save only bolshevik Russia, we alone exclude religion from our common schools."

"It is not the immigrant who is swelling the ranks of our young criminals," Judge Talley says. "The immigrant trained in a religious school nine times out of ten is lawabiding. But his son and his daughter, privileged to attend our great schools, are the ones who come before me day after day. It is most exceptional to find among these a boy or girl who was born, or at least schooled, in the old country, whatever it might be. No, they have grown up and received their training—God save the name—here!"

Judge Talley has no patience with the sickly sentimentalism spent in making excuses for weakmindedness among these young criminals. In his experience they are not weakminded. They are not mentally deficient, nor are they morons. He has found them keen and clever, more alert than the average boy.

Songs by Isa Kremer, the noted Inter-national balladist, have met with tremen-dous enthusiasm from her audiences. Miss Kremer is perhaps the most versatile per-sonality on the concert stage today. Do not fail to hear her. Her interpretation of the folk songs of many lands has gained for her followers not only American but of many nationalities.

This great artist also makes records exclusively for Brunswick. Your dealer will be pleased to play the best of her repertoire The Sign of Musical Prestige

\$5,000,000 Illinois Power and Light Corporation

> First and Refunding Mortgage Gold Bonds Series "A"-Six Per Cent-Thirty Years

> > Dated April 2, 1923-Due April 1, 1953

Price: 98.50 and accrued interest, to yield over 6.10%

The Corporation agrees to pay Interest without deduction for any normal Federal Income Tax not exceeding 2% which the Corporation or Trustee may be required or permitted to pay at the source.

The following is taken from official sources:

Company: Illinois Power and Light Corporation, organized under the laws of Illinois to acquire and merge an extensive group of old established and successful public service enterprises, directly owns and operates or controls electric power and light, gas, heat and city railway properties in a large number of the most populous and prosperous municipalities in Illinois. The Corporation also controls through ownership of the entire capital stock, Illinois Traction, Inc.—which owns an extensive and profitable system of trunk line electric railroads in Illinois—and other utilities, of which the most important are Des Moines and Central Iowa in Illinois—and other utilities, of which the most important are Des Moines and Central Iowa Electric Co. and Topeka Railway & Light Co. Property: The business of the Corporation in-

cludes service rendered to more than three hundred municipalities. The electric power and light properties, with an electric generating capacity of 256,000 h. p., serve without competition over 190,788 customers. The gas properties, with a generating capacity of over 18,500,000 cubic feet of artificial gas a day, serve, also without competition, over 70,667 customers. The city railway systems have over 235 miles of track. The principal portion of the electric trunk line railroad system, which has over 550 miles of main line track, connects the cities of Peoria, Springfield, Bloomington, Danville, Urbana, Springfield, Bloomington, Danville, Urbana, Champaign and Decatur with St. Louis, which it enters over its steel toll bridge into its own terminal in the heart of the city.

NET EARNINGS OVER 220 TIMES ANNUAL INTEREST ON TOTAL MORTGAGE DEBT OUTSTANDING

About 70% of the net earnings are derived from electric power and light gas and miscellaneous sources. For over twenty years the principal companies constituting this system have steadily increased in earning power and have paid dividends on their preferred stocks without interruption.

Security: These bonds, in opinion of counsel, are secured by direct mortgage or collateral lien on properties appraised at a value very substantially in excess of the total debt, and are a direct first mortgage or lien free of prior en-

cumbrance on properties, including some of the most important power and light properties of the system, which alone produce net earnings considerably greater than the interest charges on all bonds outstanding under this mortgage.

The issuance of these bonds has been approved by the Illinois Commerce Commission and other punhaving jurisdiction, and by our attorneys. Definitive bonds of the Corporation will be ready for delivery on or about April 10, 1924.

When New York Was a "One Paper Town!"

THIS is New York a hundred and fifty years ago—a huddled settlement of 50,000, easily coverable by a single paper if daily newspapers had been known in those days.

New York today is more than 100 times greater than it was when the little map above was made; its trading area is 300 times greater. The dream of covering it with a single newspaper is the most chimerical adventure in modern advertising.

Three newspapers have passed out of the New York picture in less than a year—one in the morning and two in the evening field. The 120,000,000 lines of advertising these three papers carried in the last five years has evaporated into nothingness so far as it is of value to the manufacturer who is building advertising good-will through continuity of impression.

The effect of these newspaper absorptions has served to emphasize the vast influence of THE WORLD GROUP. Advertisers who began to use THE WORLD in 1883 and THE EVENING WORLD in 1887 have about forty years of cumulative influence back of every line of copy they use today.

Unaffected by mergers and over-night changes of ownership or policy, these two papers continue to deliver that unbroken continuity of *service* so essential to the success of every advertising campaign.

A national opportunity awaits the advertiser today who uses THE WORLD GROUP in Greater New York. Especially is this true of campaigns scheduled for this Spring, when from 50,000 to 250,000 visitors will descend on New York, attracted by the Democratic National Convention, which THE WORLD originally proposed and carried to a successful culmination virtually single-handed.

Folks who come to New York by reason of a project sponsored by THE WORLD are more than likely to be steady WORLD readers during their New York sojourn.

This is one of the few chances advertisers have ever had of conducting an advertising campaign national in effect in one city during a single month. The month is June, and the time to plan is NOW!
